The weight changes based on the choices made below.

S3 short Abd has a ajustable rear axle in carbon fibre. To find a balance that suits you the rear axle can be adjusted into different positions. Note desired measure at "Settings". S3 Short Abd has a seat height of 45 cm in the front and 43 at the rear, without cushion. To adjust the seat height you can chose other rearwheel sizes or a raising Kit with suitable castor fork from the List of options.. **S3 short Abd is 50 mm shorter than S3 and has an abducted front and 4° seat angle.** Max userweight is **100 kg for seat width 27-33 cm**.

Save the guide to the "desktop" and open it with **Adobe Reader., for best function**
Design your wheelchair by clicking in the circles in this guide.
Blue, underlined text is clickable to show info or image.
BB = seatwidth, **HH**= backrest height
